Microsoft Entra ID Quick Start Workshop

A half-day interactive session featuring a comprehensive review and technical tips on integrating YubiKeys with Microsoft Entra ID. In addition, the workshop includes best practices on operational deployment topics plus post-workshop technical consulting hours.

Yubico is leading the charge toward a more secure and frictionless authentication future. Our Professional Services team is comprised of trained and accredited security professionals with experience gained from hundreds of customer implementations across a wide range of industries and the government sector.

Our Entra ID Quick Start workshop provides you expert advisory services focusing on helping you integrate YubiKeys as a FIDO2 authentication token for your users and enabling their FIDO2 authentication with Web and Windows Logon (with or without hybrid). The workshop features discussions on Entra ID configuration, conditional access, lifecycle management, and reporting.

Workshop Topics

Our Professional Services team will walk you through these topics—all designed to help you quickly and easily integrate your YubiKeys into your Entra ID Hybrid environment.

- FIDO2 authentication overview
- Technical prerequisites
- Enabling FIDO2 authentication
- Enabling Temporary Access Pass—TAP (optional)
- Configuring AAGUID filtering (optional)
- Configuring Authentication Strength policies (optional)
- Configuring Conditional Access Policy with Authentication Strength (optional)
- FIDO2 registration
- Web sign-in
- Configuring FIDO2 authentication for Windows workstations (pure Azure AD-joined or Hybrid)
- Workstation sign-in
- PIN change, PIN retries and key reset
- Operational deployment best practices

All workshop attendees receive:

- A YubiKey Entra ID Hybrid Technical Solutions Guide
- A Deployment Solutions Best Practices and Recommendations Guide

Plus 5 hours of post workshop on-demand Professional Services assistance, designed to provide you with follow-up support in your integration.

Who should attend:

- Cloud administrators that manage Entra ID/365
- Network/infrastructure administrators responsible for Windows domain, servers and workstations
- (Optional) members of security and identity authentication team
