Deployment 360 Program

Introducing Yubico's Deployment 360 program which packages up all of the essential elements needed in getting your organization jump started on deploying YubiKeys. The Deployment 360 program is a turnkey, start-to-finish consulting package designed to ensure your successful YubiKey deployment. Using the expertise of Yubico Professional Services to assist with both the operational and technical pieces of your deployment, it will help ensure that you start and complete your deployment quickly and on time.

Yubico is leading the charge toward a more secure and frictionless authentication future. Our Professional Services team is comprised of trained and accredited security professionals with experience gained from hundreds of customer implementations across a wide range of industries and the government sector.

The Deployment 360 program features a wide range of services and assets under one umbrella to guide your YubiKey rollout, including:

- Operational and Technical Readiness workshops or implementation projects
- YubiKey Distribution Planning or YubiEnterprise Delivery (YED) API Integration workshops
- A dedicated Deployment Advisor embedded in your project team and focused on providing guidance and support throughout your YubiKey rollout
- Professional Services hours bundles for on-demand technical assistance, both during and after your deployment

Also includes Yubico's comprehensive deployment asset library, featuring:

- YubiKey media
- Deployment project plan templates
- User communication/messaging templates
- User training materials
- Deployment Guide/Lifecycle Management documentation
- Help desk support materials
