Professional Services

YubiHSM Hours Bundles

Expert on-demand technical assistance in implementing YubiHSMs in your environment.

The YubiHSM 2 offers uncompromised cryptographic hardware security for applications, servers and computing devices at a fraction of the cost and size of traditional HSMs. Yubico Professional Services offers a package of flexible, on-demand consulting hours designed to help you deploy, implement and integrate YubiHSMs in your environment.

Professional Services Offers

Comprehensive technical guidance

Professional Services engineers have deep expertise to provide you:

- Greater knowledge and core concepts of the YubiHSM 2
- Guidance on essential management tools, such as the YubiHSM connector, Shell and Setup tools
- Assistance in PKI and digital signing

Experience in supporting popular YubiHSM use cases:

Our Professional Services engineers have experience in a variety of YubiHSM use cases, such as securing:

- Microsoft Active Directory Certificate Services (ADCS) with a hardware root of trust for PKIs
- Internet of Things (IOT) environments
- Code signing
- Cryptocurrency/Blockchain

Two packages to fit your needs

- Mini PS Hours bundle: **5 hours**
- Light PS Hours bundle: **10 hours**

PS Hours Benefits

On-demand consulting
Engage with Professional Services engineers for technical guidance and support when you most need it

Long-term assistance
Hours can be used over a 12-month period

Multiple methods of assistance
Hours can be utilized in multiple ways. Clients can either email questions or schedule virtual meetings with a Professional Services engineer

Easily expandable
Additional hours bundles can be easily purchased if needed
